

They know the secret...

For great tasting water,
use expert filtration.

IEN RANGE

(Scale Reducing Technology)

Specially developed ION Exchange Resin filters that incorporate a mixed blend of media to reduce scale build up, whilst stabilising pH levels to ensure the best filtered water.

IEN RANGE

H2O Direct have developed a range of ION Exchange Resin Filters that can be used in a wide variety of applications including hot water boilers, hot liquid vending and espresso machines.

The technology within these filters reduce scale build up and prevent unpleasant metallic and/or chlorine tastes with an easy to change auto water shut off facility, whilst protecting your machinery against costly break downs.

WHO USES IEN FILTERS?

- Hot Drinks Vendors
- Restaurants/Cafés
- Catering
- Offices

WHY USE IEN FILTERS?

- Reduce scale build up
- Ph balanced
- Protect machines
- Saves expensive service costs
- Easy install/change

KEY FEATURES

- High level of scale reduction
- Fixed 30% bypass system and specially blended resin stabilise pH levels
- Reduced chlorine content, bad taste and odour issues
- Superior performance and efficiency when compared to other leading brands (in house testing)
- Auto water shut off
- One head to fit all quick change filter cartridges

IEN-3000

IEN-6000

IEN-9000

CAPACITY According to By-pass at 30% in litres

Hardness (Dh)	Hardness (ppm)	IEN-3000	IEN-6000	IEN-9000
5	89	6012	12003	18000
10	178	3006	6002	9000
15	267	2004	4001	6000
